Response to Arguments

Applicant's arguments, see page 12 lines 14-20, filed 6 October 2005, with respect to claims 1-6 and 8-28 have been fully considered and are persuasive. The rejection of claims 1-6 and 8-28 and the objection of claim 7 has been withdrawn.

Reasons for Allowance

Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The amendment to claims 1 and 11 distinguishes the claims over the prior art. The Doughty reference (6,126,396) discloses a plurality of independent cooling circuits which include two impingement cooling channels separated by perforate partitions, but does not disclose the use of a plurality of independent cooling circuits with one circuit including successive cascade channels separated by corresponding perforate partitions, each including a row of impingement holes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
